

# Elevation records (GRS-728)

## Utah General Retention Schedule

### Description

These county geospatial records pertain to the elevation of a particular county in Utah. Digital Elevation Models (DEMs), contours, slope, and aspect are included. Digital representations of contour information known as hypsography represent lines of vertical elevation values above or below a datum surface. Light Detection and Ranging (LIDAR) data is also included.

### Retention and Disposition

Permanent. Retain for 1 year. Transfer records to the archives.

### Appraisal

These records have administrative, and/or historical value(s).

### Appraisal Note

These records have historical value based on their contribution to knowledge and understanding of the people and communities of our state.

### Categories

Geospatial Data Sets
